File Prep Details + Guidelines

Every project is unique, ranging in sizes from small pocket logos to full back prints. Larger projects demand high resolution graphics to achieve a sharp and clear image to avoid any pixelation or fuzziness. Ensuring the highest quality of graphics when sending them to us is crucial for the flawless appearance of your customized product. We highly recommend using this guide as a point of reference when setting up and sending your files over to us.

EASY SETUP GUIDE

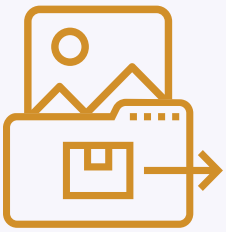
STEP 1

Ensure your file matches the required design dimensions

STEP 2

Check that the resolution of your artwork is at least 300 ppi

STEP 3



Export your files as .PDF, .JPG, .PNG, .AI, .SVG, .PSD, or .EPS.

GRAPHICS DIMENSIONS + RESOLUTION
